## HOW TO USE THE

# 1956 JOURNAL INDEX

As you search through the indexes of various periodicals you find different styles of listing. The style adopted by the *American Journal of Nursing* is fairly common, and we believe that it is the easiest one to use.

Each *Journal* index is arranged in one alphabetical list, as in an encyclopedia. Thus, names of authors, of personalities in the news, of places, and of organizations, are all intermingled alphabetically with the subject headings.

**American Red Cross Nursing Service**
**Amphetamine** *See* Drugs
**Anatomy and physiology**
**Anderson, Agatha**

Organizations sometimes change their names; so do authors of a certain sex. In such a case the reference is entered under the latest name, with a *See* reference to the earlier name. Thus:

**Brown, Mary Greene**
Nursing in the good old days, (illust.), 1861

**Greene, Mary Jane** *See* Brown, Mary Greene

**Joint Commission for the Improvement of the Care of the Patient** *See* National Joint Commission for the Improvement of the Care of the Patient

**National Joint Commission for the Improvement of the Care of the Patient**
semiannual meeting (report), 1505

Any city that has been discussed in the 1956 *Journal* will be listed under its state. Hospitals and their schools of nursing are listed under their states, and so are the individual state nurses associations. But colleges and universities and their schools of nursing are entered independently. Look at the many entries and *See* references under the heading, **New York**, for illustrations of this style of listing. You will see that the New York references are themselves listed alphabetically, and when you find the sub-heading **State Nurses Association**, it in turn will have its list of references all in alphabetic order. In the listings even for the national ANA and NLN organizations, with their many sub-headings and sub-sub-headings, the only protocol observed is alphabetical.

We are told that many a person needing to use an index fumbles and wastes time and patience because he is not thoroughly familiar with the alphabet; and that try as hard as he may, he can never gain the easy, instantaneous awareness of letter sequence possessed by those who chanted their ABC's in early childhood. Such a person will have to develop other skills, concentration, and speed in reading, or keep a written alphabet on view.

To help you find *Journal* material on professional, educational, clinical, and technical topics, this index uses a rather large number of subject headings, which range from the quite general to the very specific. For articles of a general nature look under the broader headings, such as **Drugs, Nursing service administration,** or **Pediatrics.** Thus:

**Nursing service administration**
Procedure fair (Burens), 597
*What good nursing means to you* (Waldman), (rev.), 52

The first entry is also listed under **Procedures and techniques,** and under the author's name, **Burens, Dorothea.** The second, which is italicized because it is a book—(rev.) means book review—appears also under the headings, **Pamphlets and reports** and **Public relations,** as well as under the author's name, **Waldman, Susie Berg.**

Most of the articles on nursing treat of some specialty, such as **Orthopedics and orthopedic nursing;** so they would not be entered under **Nursing.** The article "Posture in adolescents and adults," by M. Beckett Howorth, on page 34, is listed in the index under **Orthopedics and orthopedic nursing,** and, of course, under **Howorth, M. Beckett.** It seemed unnecessary to enter it under both **Body mechanics and Posture;** so the former heading was chosen, and under **Posture** you will find *See* Body mechanics.

The news item on the pay scale equality won for the Health Service nurses at the University of Colorado by the Colorado Nurses Association, carried in the November issue, page 1448, is listed under **Colorado, Nurses Association,** and under **Collective bargaining.**

**Book reviews** are listed in the general index under author and subject or subjects. We hope that the list that appears in the August *Journal* will take care of the needs of those who are interested in book reviews per se.

We do not pull our subject headings out of a hat. For medical terms we consult the *Quarterly Cumulative Index Medicus,* published by the American Medical Association, and the *Subject Heading Authority List,* published by the Armed Forces Medical Library. For headings in the field of nursing we use the list printed in *Library Handbook for Schools of Nursing,* second edition, published by NLN. The H. W. Wilson Company's *Education Index* is of great assistance to us in listing our occasional education articles.

But in the last analysis the choice of a subject heading is determined by opinion. Opinions vary, fashions in terminology or "key words" change, and this index doubtless contains its quota of variations and inconsistencies.

# THE AMERICAN JOURNAL OF NURSING

INDEX TO VOLUME 56, NUMBERS 1-12 JANUARY-DECEMBER, 1956

THE material in this index is arranged under subjects, authors, and some titles.

THE page numbers included in each issue of Volume 56 are shown below:

| | | | | | |
|---|---|---|---|---|---|
| January | pp. 1-128 | May | pp. 529- 688 | September | pp. 1077-1214 |
| February | 129-256 | June | 689- 820 | October | 1215-1360 |
| March | 257-384 | July | 821- 948 | November | 1361-1498 |
| April | 385-528 | August | 949-1076 | December | 1499-1626 |

THE following abbreviations are used in this index:

(abs.) abstract
(ed.) editorial
(exc.) excerpt
(L) Letters pro and con
(rev.) review
(illust.) illustrated

OTHER abbreviations used throughout the index are:

| | | | |
|---|---|---|---|
| AACC | Association for the Aid of Crippled Children | NHC | National Health Council |
| AANW | American Association of Nurse-Midwives | NSCCA | National Society for Crippled Children and Adults |
